

Social Enterprise Special Offers

A social enterprise (SE) is a business operation which employs business model and strategies to achieve specific social objectives. The social objectives may be creating training and employment opportunities for the socially disadvantaged, protecting the environment, etc. Profits made by the SE will be principally reinvested in the business for the social objectives it pursues, rather than distribution to its shareholders. For more information on SEs, please visit the dedicated website established by the Home Affairs Department (<http://www.social-enterprises.gov.hk>).

The Home Affairs Department has implemented the Enhancing Self-Reliance Through District Partnership Programme (the Programme) since June 2006 to provide grants for eligible not-for-profit organizations to support the initial operations of new SE projects. The aim is to create employment opportunities for the socially disadvantaged and to help them become self-reliant.

The special offers listed below are given by SEs funded under the Programme. University staff members are invited to use their products and services to support the development of SEs.

Domestic and Personal Services

Versatile Home Services
